

Community workshop #5

15 May 2021 10am-12pm at Bungonia Hall

LAND VALUES ↓

COMPENSATION

Bungonia is listed as a NSW Spurring to Canberra corridor area for growth in tourism! How will JP compensate the loss in Revenue from the green spusters?

We are on the Dalton Fault line. What measures will Jerrara Incinerator Plant conform to earthquake safety measures. How is the water coming?

INFRASTRUCTURE

43,000 hours with the power distribution zone? type? Seems this is specifically for industry? Like others? Waste burnt to power what?

What is the path of the power lines to the grid?

Earthquake assessment to infrastructure??

Earthquake mitigation assessment reqd

* Flooding assessment (creek)

THE COMMUNITY DOES NOT WANT JERRARA POWER

IS OF SOME...

Does the NSW Government support the Jerrara proposal?

Is this the new PFAS?

is Goulburn... the Jerrara proposal?

APPROVALS

Does the Minister for Energy support the Jerrara Power proposal?

Does the incinerator proposal preclude future expansion of the facility?

Does the incinerator proposal preclude future expansion of the facility?

WHO GETS YOUR POWER FROM THE PLANT AND WHO'S PROPERTIES ARE THE TRANSMISSION LINES GOING TO?

NO JERRARA POWER

TECHNOLOGY

Transitional technology doesn't mean what you think it does - it means partially green - not a different type of brown power. How are you actually transitional?

What was council response!

TRAFFIC

Will heavy vehicles operate during night time hours?

Is waste acceptance a 24 hr operation?

HEALTH HEALTH IMPACTS

What was council response!

CHINESE BACKING? MIN-25Y MAX? WATER FROM? ZHONG SHUO SHOULD NOT EXIST, -ALYSSA SAID. GRATE ASH GOES WHERE? MEANWHILE TRUCK TRANSPORT SMELL. CONTAMINATED TANK WATER AND GROUND FROM FLY ASH RESIDENTS ARE DRINKING AND BREATHING AND CONTAMINATING.

Jerrara Creek

WATER

What water sources would you be using?

STANDARD OF LIVING... HEALTH ISSUES... ROAD WORKS... EYE SORE... INFRASTRUCTURE CHANGE... HOW ARE WE SAFE FROM THIS PLANT. IF THERE IS AN ISSUE.

WHAT ARE THE MORAL OBLIGATIONS TO THE RESIDENTS OF BUNGONIA, QUINDIGA AND REGION?

COMPANY

What rebates will be received from EPA/Govt for landfill diversion?

Why is the waste processing area built over a water way?

Water use? How much? Where from? Impact on ground water?

Where will the water from the incinerator come from? What are the options identified?

ON YOUR WEBSITE, YOU SAY THE IMPACT ON HUMAN HEALTH ARE 'NONE'. WHAT RESEARCH HAVE YOU DONE TO PROVE THIS?

What amount per tonne does JP receive for receiving waste? What \$ amount for disposing of flue gas residue?

HOW IS THE PROJECT BEING FINANCED AND WHO ARE THE INVESTORS? Jerrara Power has 1 share + \$2 issued capital.

Participants selected to survey people in...

At what points can the community provide feedback to JP and Government?

Will the EIS be released for Community Comment?

Increased CO2 to local environment - Flora, fauna, residents & weather

the I-1 or more than 1km trapped as flu gas?

Why not on the hume? Why a regional Road?

USE IS PROHIBITED in zone - Why here! Community planning doesn't allow it!

WANT YOU TO... WHY THE FACI... OT GO AHEAD... SYDNEY

LOCATION

The current land use specifically prohibits...

Why here? - why not in Sydney? - less transport & less CO2 emission - increase economic for power line interests

WHY NOT WASTE TO ENERGY PLANT ADJACENT TO WHERE TOXIC FLUE ASH WILL END UP?

CONSULTATION

Was the survey done on 18 Is Jerrara willing to fund the community response to EIS submissions.

MONITORING

What is the composition of the air emissions? and the quantity? (ppm.)

What will be the toxic residue risk exist after 25 years?

AIR QUALITY

Loss of INCOME....

Does Goulburn Mulwaree Council Support the Jerrara Power proposal?

The policy statements you say you are aligning do not mention Jerrara toxic waste but promote recycling and green energy is this green energy?

Where is your water coming from? How much in Usage?

WHERE WILL YOU GET YOUR WATER FROM TO CLEAN TOXIC FLUE THE ASH?

LAND VALUES

Bungonia is listed as a NSW Sydney to Canberra corridor area for growth in tourism! How will JP compensate the loss in Revenue from the green hipsters?

COMPENSATION

Does the NSW Government support the Jerrara proposal?

APPROVALS

Does the Minister for Energy support the Jerrara Power proposal?

Are you going to use an existing bore to pipe water to proposed Jerrara Site? Why don't you build Jerrara Incinerator in a site with no farming/horticulture wildlife? - Jerrara Creek

WATER

Water use? how much? where from? impact on ground & water?

Where will the water from the incinerator come from? What are the options identified?

INFRASTRUCTURE

We are on the Dalton Fault line. What measures will Jerrara Incinerator Plant conform to earthquake safety measures. Does the water coming from the water coming

43,000 homes within the power distribution zone? Seems this is specifically for industry? Like mines? Waste burnt to power what?

WHO GETS YOUR POWER FROM THE PLANT AND WHO'S PROPI ARE THE TRANSMISSION LINES GOIN

NO JERRARA POWER

HEALTH IMPACTS

STANDARD OF LIVING... HEALTHY... EYE SORE... INTERACTING (HAZARDOUS) CHEMICALS TO LUNG... HOW ARE WE SAFE FROM THIS PLANT. IF THERE IS AN ISSUE.

ON YOUR WEBSITE YOU SAY THE IMPACT ON HUMAN HEALTH ARE 'NONE'. WHAT RESEARCH HAS BEEN DONE TO PROVE THIS?

TECHNOLOGY

Transitional technology doesn't mean think it does - partially green type of Brown How are you...

Earthquake assessment infrastructure

What is the path of the Power lines to the grid?

IS METHANE AS TOXIC AS FLY ASH ??

Survey participants
→ how selected
- need to survey relevant people + not people in Marulan !!

At what points can the community provide feedback to JP and Government?

CONSULTATION

Was the survey done on 18- or not?

Is Jerrara willing to find the community response to EIS submissions.

LAND VALUES ↓

Bungonia is listed as a NSW Sydney to Canberra corridor area for growth in tourism!
How will JP compensate the loss in Revenue from the green 4 posters?

We are on the Data Fault line.
What measures will Jerrara implement Plant carbon capture measures over the

HOW DO YOU ENSURE PROHIBITED TOXIC WASTE IS NOT CARTED + PROCESSED ONSITE?

ENVIRONMENT

Impacts increased CO2 to local environment
- Flora, Fauna, residents + weather

MONITORING

COMPENSATION

LOSS OF INCOME...

Does the NSW Government support the Jerrara proposal?

Is this the new PFAS?

How does this meet zero CO2 emissions target?

"Shouldn't have leakage?"

Will it be an open or closed top system?
What is the cost of maintaining a part so any to link with the system?
What's the protocol when it fails?

the 1/1 or more that isn't trapped as flue gas?

AIR QUALITY

What is the composition of the air emissions? and the quantity? (ppm)

What will be the toxic residue risk exist after 25 years?

Does Goulburn Mulwaree Council support the Jerrara Power proposal?

APPROVALS

Does the proposal pre future expansion of the facility?

Can you tell me of any project that is already going in Australia like the one in Jerrara?

OPERATION

In 25 years if there isn't enough non-recyclable waste that's cheap enough, what fuel source will you use?

illumination impact - assessment reqd

Why not on the hume? Why a regional road?

Why didn't "Jerrara Power" purchase the land instead of posing as an ag company? seems suspicious?

The policy statements you say you are aligning do not mention Jerrara toxic waste but promote recycling and green energy is this green energy?

Does the Minister for Energy support the Jerrara Power proposal?

Does the proposal pre future expansion of the facility?

A solar plant would produce more power - and be a regional tourism destination - what tourism will Jerrara provide?

COMMUNITY BENEFITS

Are you adding to the community? Technology? Fiber? Health? anything positive?

WE WANT YOU TO TELL US WHY THE FACILITY DID NOT GO AHEAD IN W. SYDNEY

LOCATION

Why here? - why not in Sydney?

Would it not make more sense to locate the plant near the reservoir??
- less transport & less CO2 emission
- increase economic for power line infrastructure

Where is your water coming from? How much in usage?

What about you build Jerrara Wastewater in a WWTW with re-forestation
- Jerrara Creek

WATER

Why should the community accept an extremely low energy producing facility. 28MW does little when compared to proposals like Marulan power plants

What is the actual benefit to the community?

How does it work? Applicable to planning rules in the Range with all planning rules that apply to the site in (National Environment Act)

The current land use and resource management facilities. Why should the community accept a prohibited facility?

WHY NOT HAVE WASTE TO ENERGY PLANT ADJACENT TO WHERE TOXIC FLUE ASH WILL END UP?

WHERE WILL YOU GET YOUR WATER FROM TO CLEAN THE ASH?

Why is the waste processing area built over a water way?

Waste how will we manage it?

form =
source?
activity on.
go HF?
available for local farm
"
on.
or Bengali Region.
?

"Shouldn't have leakage"?

Will it be a
open or closed
loop system?

Can you tell me
of any project that
is already going
in Australia like
this
ore
John Wiggan

OPERATION

Who is maintaining
the system?
What's the protocol
when it fails?

illumination
impact
- assessment reqd

roduce
a regional

COMMUNITY

Are you adding to the

the
one
Jul Wiggan

illumination
impact
- assesment reqd

A solar plant would produce
more power - and be a regional
tourism destination -
What tourism will JP provide?

COMMUNITY BENEFITS

Are you adding to the
community?
Technology? Fiber?
Health? Any thing positive?

Why should the
community accept an
extremely low energy
producing facility.
28 MW does little when
compared to proposals
like Marulan power plants?

What is the actual
benefit to the
community?

ment?

Increased
CO₂ to local
environment
Flora, Fauna, residents
& weather

MONITORING

What about

the 1-1. or
more that isn't
trapped as flu
gas?

AIR
QUALITY

What is the
composition of the
air emissions?
and the quantity?
(p.p.m.)

What will be the
toxic residue risk
exist after 25 years
?

Survey
Participants

How selected
ed to survey
nt people
people in
n !!

At what points
can the community
provide feedback to
JP and Government
?

Will the EIS
be released for
Community
Comment?

increased
CO₂ to local
environment
- Flora, Fauna, residents
& weather

CONSULTATION

Was the survey
done on 18-50yo
or not?

MONITORING

What is the
composition of
air emission

LAND
VALUES

COMPENSATION

Bungonia is listed as a NSW
Sydney to Canberra corridor
area for growth in tourism!

How will JP compensate
the loss in revenue from the
green hipsters?

Does the NSW
Government support
the Jerrara power
proposal?

Does Goulburn
Mulwaree Council
Support the Jerrara
Power proposal?

APPROVALS

Scoping
phase??
already purchased
land??

The policy statements
you say you are aligning
do not mention Jerrara
toxic waste but promote
recycling and green energy
Is this ^{renewable} green energy?

Does the Minister
for Energy support
the Jerrara Power
proposal?

Does the incinerator
proposal preclude
future expansion
of the facility?

earthquake safety
measures.
Where's the water coming
from.

Renewable
green energy?

future expansion
of the facility?

Where is
your water
coming from?
How much in usage?

* Impact to
Water catchment
- Jerrara Creek

WATER

What water sources would
you be using?

WHERE WILL YOU
GET YOUR WATER
FROM TO CLEAN
TOXIC FLUE
THE ASH?

Why is the
waste processing
area built over
a water way?

Water use?
how much?
where from?
impact on
ground
water?

Where will the
water ~~for~~ the
incinerator come
from? What are
the options identified?

We are on the Dalton
Fault line.

What measures will
Tenara Incinerator
Plant conform to
earthquake safety
measures.

Where's the water coming
from.

INFRASTRUCTURE

43,000 homes within the
power distribution zone? rope?

Seems this is specifically
for industry? like mines?
Waste burnt to power what?

What is the path of
the Power lines to the
grid?

Earthquake
assessment to
infrastructure?

Earthquake
mitigation
+ reqd

TECHNOLOGY

Transitional technology
it mean what you
it means

What is the path of
the Power lines to the
grid?

Earthquake
assessment #8
infrastructure??

• Earthquake
mitigation

assessment req'd

* Flooding
assessment
(creek)

IS METHANE AS TOXIC AS FLY ASH ??

HOW DO YOU ENSURE PROHIBITED TOXIC WASTE IS NOT CARTED + PROCESSED ONSITE?

ENVIRONMENT

- Waste type breakdown -
- Waste Characteristics :
- Ash Trucks In - Out ->
- What is the Process name - Process name ?
- What is the combined site capacity ?
- What deep the Process line go HFT Process where ? To where ?
- What type soils are available for landfill from with 20km .
- " Process " " " "
- Where is the Water Service from .
- What benefit is there for Bonganza Region .
- Size Weight of Trucks ?

"Shouldn't have leakage" ?

you tell me if project that is not really going

OPERATION

Why not on the hume?
Why a regional Road?

Why didn't "Jerrara Power"
purchase the land instead of
posing as an ag company?
seems suspicious?

USE IS PROHIBITED in Zone
- why here! Community
planning doesn't allow it!

Waste Problem in Sydney,
not in "NSW" - how does
this help Bungonia Residents

LOCATION

- Check R22 zoning
- How does it work differently to prevent odour to the Bungonia site at Murrumbidgee which does produce odour (Activated carbon adsorbent)?
- 1000000 off the road but put in side on the road
- 320,000 for use = 1000000 - 1000000 = 0
- Does any Waste come from the area? Or is it just a waste dump?

The current land use ^{R22} specifically prohibits waste and resource management facilities. Why should the community accept a prohibited facility?

Why here?
- why not in Sydney?
3yrs prework & already purchased property??

WHY NOT HAVE WASTE TO ENERGY PLANT ADJACENT TO WHERE TOXIC FLUE ASH WILL END UP?

Waste company or power?

What is the primary revenue?

COMPANY

What \$ amount per tonne does JP receive for receiving waste?

What \$ amount for disposing of fly ash residue?

- CHINGSE BACKING?
- MIN- 25Y MAX?
- WATER FROM?
- FLY ASH SHOULD NOT EXIST. - ALYSSIA SAID.
- GRATE ASH GOES WHERE? MEANWHILE
- TRUCK TRANSPORT SMELL.
- CONTAMINATED TANK WATER AND GROUND FROM FLY ASH RESIDENTS ARE DRINKING AND BREATHING AND CONSUMING.

What rebates will be received from EPA/Govt for landfill diversion?

HOW IS THE PROJECT BEING FINANCED AND WHO ARE THE INVESTORS?
Jettara Tower has 1 share + \$2 issued capital.

Earthquake
assessment #8
infrastructure??

• Earthquake
mitigation

assessment req'd

* Flooding
assessment
(creek)

- Earthquake risk? - land collapse risk
3.0 mag earthquake recent weeks
- Technical surveys for site selection suitability
- When do we get to comment to govt on the zoning?
- How can it be appropriate site next to Ferrara Creek + into water catchment?
- If the community doesn't want it, why do you persist?
- Dedicated industrial/energy parks, why putting it in rural area?
- What are you going to do with the land if you don't get consent?
- Why don't you have it next to ~~my~~ your place?
- SEARs - will community be able to make comment on them before finalised?
 - have we spoken to enviro + energy ministers + minister for planning + Council
- Did DPIE provide feedback?

- What happens in 25 yrs — community, legacy — health issues?
- This process put forward as community consultation
- Falling rain gets into places where it's never been before
- Reliance on tank water
- What kind of research will you do that proves what you emit doesn't impact water, stock, water catchment
- No bores — referenced other plants → community has experience with things changing after approvals given — what guarantees can you give us on this?
- Where does the power go? Whose properties does the power line easement go through?
- You can't answer where the water will come from
- Multiquip started as a chicken farm → now a quarry → things can change → we want a guarantee you won't put a quarry or mine on the site

- If piped water in, will the community be able to benefit from + access that water?
- Ponds - lined? evaporation? fenced? covered?
- 70,000 kilotonnes of water??
- Political donations of any board members / shareholders / directors / managers → no
- EFW policy statement - how does MSW + C+I waste meet ~~meet~~ EFW policy?
- Still a lot of plastics in MSW - ~~also~~ dioxins + toxins
- Question the transparency of this consultation
- Bores must be cased
- ~~How~~ How will demonstrate need for this facility in this area?

Q. What is daily, weekly input ^{of water} for the facility

- How high does the emission go and what radius?
- Effects on surface water + soil contamination?
- Scientific data from other plants overseas - readouts
- reports that show emissions readings in EIS + effects on water + soil

- How can you guarantee that the input waste is the type that we don't end up with waste being processed that includes heavy metals/toxins?
- Many bodies involved - picking up rubbish, trucking, emissions, how many bodies do we have to chase
- How is this supportive of ~~the~~ tourism? Conservation area + national park
- How will you address land use in your position?
- % of land is being taken up by proposal
% of land remaining
- Traffic generation - noise
- Noise of Facility
- 99% of flue gas emissions - website
- FAQs - human health impacts - none
- does human health include mental health
"being investigated" or "being researched"
- Name Terrara Waste rather than Terrara Power

- Who's responsible for Ferrara Rd - Council or Multiquip?
- Are you going to do the upgrade and maintenance without any costs to the residents?
- Bring up past agreement b/w Council + Multiquip re maintenance of the road? in discussion
- Show of hands was called to ask who rejected the proposal - every person in the room raised their hand
- What happens at the end of the operating life of the plant?
- Do JP intend to return back profits to the advancement of other technologies so we can phase this archaic practice from around the world?
- Big cost in this is transport - backloads to Sydney
- An emergency on site or issue on site - it's the wrong area - what is the fallout for how that can impact the community?
- Bigger danger is the 104 truck movements - diesel - what about the rail line - stretch, noise - are there other ways to transport the waste

• Why couldn't you put it right on the highway?
